Feature Name (MVP or Iteration #)

Functional Specification

July 20, 2012
Author(s): Gilbert My Cat
Subject Matter Expert(s): Noam Chomsky

Overview

Quickly describe the feature and target users here. Identify the business case and the opportunity for our company.

User Stories

List specific user stories here that help explain the feature. Write as many user stories as are necessary to explain the feature.

As a (user) **I want to** (action) **so that I can** (reason).

Example: **As a** general admin user **I want to** download my raw CSV data **so that I can** investigate my data in excel.

Wireframe

Use balsamiq or equivalent to create a wireframe diagram of the functionality and how it fits into our application's information architecture (navigation).

Insert the image here so that it is distributed and versioned with the document.

Features

Describe each feature in detail. If math is used, put it here. If resources were used to uncover this information, link them here. Bullet points and flow charts are superior to long narratives.

Out of Scope

In order to meet delivery and minimize initial investment, the minimum viable product must be light in features. For clarity, some of these unscoped features are listed here.

- Bullet points

Concerns

- Bullet points
